Currently Working In It

PROJECTS

Click Sudoku Game

Developed an interactive Sudoku puzzle game using HTML, CSS, and JavaScript with features like puzzle validation, responsive design, timer functionality, and restart option. Improved problem-solving and JavaScript logic-building skills through dynamic game functionality and user interaction design.

Click Typing Speed Test

Developed a responsive typing speed test game using HTML, CSS, and JavaScript that measures typing speed and accuracy in real time. Implemented timer functionality, score calculation, mistake tracking, and dynamic text generation to enhance user interaction and JavaScript event-handling skills.

Click Tune Box

Developed a modern music player website using HTML, CSS, and JavaScript with features like song playback controls, playlist management, responsive UI, and dynamic audio handling. Improved frontend development skills through interactive design, media control implementation, and user-friendly interface creation.

Click Tic Tac Toe

Developed an interactive Tic Tac Toe game using HTML, CSS, and JavaScript with two-player gameplay, winner detection logic, score tracking, and responsive design. Strengthened problem-solving, game logic implementation, and frontend development skills through dynamic user interaction and UI design.

Click Study Tracker

Developed a productivity-focused study tracker website using HTML, CSS, and JavaScript to help users monitor learning progress, manage tasks, and track daily study goals. Implemented responsive design, progress tracking features, dashboard-style UI, and interactive components to improve frontend development and JavaScript functionality skills.

Click Code Spinner Quiz

Developed an interactive Spinner Quiz game using HTML, CSS, and JavaScript featuring a random spinning wheel, multiple-choice questions, score tracking, and answer validation. Designed a responsive and engaging user interface while improving JavaScript logic, animations, and event-handling skills.

Click 2048 Math Game

Developed an interactive 2048 puzzle game using HTML, CSS, and JavaScript with smooth tile movement, score tracking, responsive design, and mobile touch support. Implemented game logic, tile merging mechanics, and dynamic UI updates to strengthen problem-solving and frontend development skills.

Click Entire Skill Hub

Developed a modern educational web platform using HTML, CSS, and JavaScript featuring user login, interactive dashboard, dark mode, AI chatbot support, and progress tracking system. Designed a responsive and user-friendly interface to enhance learning management and improve frontend development, UI/UX, and JavaScript functionality skills.

Click Amazon Clone

A modern responsive Amazon landing page built using HTML, CSS and JavaScript. Designed with attention to spacing, responsiveness and clean UI. Technologies used HTML5,CSS3,JavaScript. Features : Responsive Layout,Navigation Bar,Product Cards,Footer.

Click Rock Paper Scissors

A simple browser-based game made using HTML, CSS, and JavaScript.

Click Snake & Leader Game

A digital version of the classic multiplayer board game featuring dice rolling and interactive gameplay.

Click Lie Detector Game

An entertaining prank-based game that randomly detects whether a statement is true or false.

Click → Chess

A classic strategy game where two players take turns moving pieces on a checkered board.

Click → Cafe

A modern café website showcasing menu items, services, and contact details with an attractive UI.

Click → Business Website

A modern business website showcasing services, products, and contact details with an attractive UI.

Click → Salon Website

A premium beauty salon website designed to create an elegant and modern digital presence for a beauty brand.

Click → PlayConnect

A social networking platform for connecting with friends and sharing experiences.

Click → eSeva Portal

A web portal for providing various government services online with a user-friendly interface.

Click → SafeHer

A web application for women's safety and empowerment with features like emergency alert and location sharing.

Click → Mom Birthday Card

A personalized birthday card for my mom with special messages and animations.
